

Caravan pretrip checklist

- 1 Check that all the windows and any hatches are closed
- 2 Check that there is a fire extinguisher fitted and charged
- 3 Check that your gas bottle is securely fitted and your water tank has been filled recently
- 4 Check the wheel nuts of your caravan are properly tensioned
- 5 Ensure that all the cupboards and drawers in the caravan have been closed & any tables secured firmly
- 6 **Ensure that your brakes have been checked and adjusted if necessary**
- 7 Ensure that the fridge door is closed and locked, also check that any of the fridge's contents are sealed
- 8 No loose items should be kept on cupboards or shelves within the caravan
- 9 **You should also have your wheel bearings checked to ensure they are clean, un-damaged and correctly adjusted**
- 10 **It is recommended to have a caravan specialist such as CARAPAIRS check the caravan before your departure**

JUST BEFORE DEPARTING...

- 11 Check that all safety chains have been secured
- 12 Check that the caravan doors are locked and closed
- 13 Check that the steps of the caravan have been raised
- 14 Double check that lights are working, both on the vehicle and caravan
- 15 Ensure that **all** tyres have been correctly inflated to the appropriate pressure
- 16 Ensure that all wheel chocks have been removed
- 17 Ensure that your towing aid has been fitted correctly and safely
- 18 Ensure the jockey wheel has been removed and/or firmly secured
- 19 Make sure that all gas has been turned off
- 20 Make sure that all jacks have been raised and all safety stands removed
- 21 Make sure that the 240V electrical lead has been disconnected

Tick all the boxes?

If so, you're ready to go.

Have a great holiday!
